

Reciting Multiplication Tables

Dear Students and Parents,

1. Multiplication tables are essential to learn and excel in mathematics.
2. We are happy to know from students that they attained mastery over multiplication tables. We appreciate their curiosity about learning. Keep it up.
3. The students who attain mastery in multiplication tables can recite the tables to their respective class teacher as per the schedule mentioned on the website.
4. While reciting the multiplication tables, student's mother/father/guardian must sit along with the student to assure that the student is telling honestly without copying.
5. At first, the student must recite the tables to his/her parents without any mistakes and gain confidence. Parents should check and ensure child's thoroughness over multiplication tables before reciting to the teacher.
6. When the teacher asks questions **randomly**, they must give the answers correctly.
7. The students who are ready to recite multiplication tables should inform to the teacher at the end of the Mathematics class (in the last 2 minutes) by giving their names in the chat box.
8. Only one chance will be given to a student to recite each multiplication table in each term. If he/she fails to recite correctly, then he/she has to continue writing multiplication tables.
9. You can also recite only one multiplication table perfectly in your chance.
10. Students can check the updated list of reciting multiplication tables.
11. The list of students who have completed the multiplication tables recitation will be uploaded and updated (weekly) in the exam tab of the school website.

All the best.
